Hi Ginny,

I spoke with Angela and she said that SERO is trying to get through the review as soon as she and Gerard can. She couldn't give me an exact time but it is a high priority to get it finished.

Not the answer you were looking for I realized.

Joe

Joe-

FYI – Please check in with Angela on the status of DEP review of Phase III and ask her when she expects to connect with EPA on the path forward DEP intends to take on the Phase III considering their review, their contractors review, EPA comments and CoNB comments. Thanks!

## Angela-

I apologize, but after transmitting our comments last week, I realized I had overlooked comments from one of the EPA reviewers. None of the substantive comments changed, but some additional detail and clarification has been added. I am attaching an updated version of EPA's comments on the Phase III – only a few of the comments were updated from the prior version. EPA is still looking to schedule a call with DEP to discuss the comments and the schedule for DEP's response on the AVX Phase III. Please let me know your availability for a call. I think it would be best if both you and Dawn could participate in a call with Elaine, Cindy and I. It would be great if Gerard could join as well if he is available. Thanks.

## Angela-

As we have discussed, EPA is providing the attached comments on the AVX Phase III Remedial Action Plan submitted by AVX on August 22, 2016. Please note that these comments are from the EPA Superfund program and do not represent comments from EPA's TSCA program. EPA's TSCA program may have additional comments. In the attached comments, we reference PCB surface soils and intertidal sediment data that we have collected on the Tideign program of the transfer of the collected on the Tideign program of the transfer of the collected on the Tideign program of the collected on the collected o have collected on the Titleist property that we feel document that the OU1 contamination extends further east and south of the area delineated by AVX. We will provide that data to all parties as soon as we have permission from the property owner. Please let us know DEP's schedule for review and response on the AVX Phase III and what you see as the

process and schedule for DEP approval of a final Phase III Remedial Action Plan. EPA would like to schedule a call to discuss the attached comments and clarify any questions or concerns DEP may have on the comments we are providing. Please let me know your availability for a call the morning of Friday the 23rd or any morning the week of the 26th. Thank you.

Ginny Lombardo, Chief Remediation & Restoration II Branch U.S. EPA Region 1 – New England (617)918-1754
